Camera Obscura team
Whangarei

Dear Diane,

Congratulations on the work you have done for our city with the proposed Camera Obscura Sculpture project being well advanced and due a start any day soon I hear.

The work you have done thus far is nothing short of miraculous and together with your close knit team, what you are about to complete, will be another magical piece of our tourism tapestry.

As you are aware my Group, the Northland Development Corp, are advanced with the waterside development of a mixed use Hotel facility , including Events, accommodation and hospitality.

What you are about to do , will not only add to our success , but will put another medal on the chest of our region.

We see the Camera Obscura Sculpture as a marvelous attraction as can be witnessed worldwide, and one that will certainly have many of its visitors attending our project upon completion.

We are blessed to have inspirational city leaders like you and your team and we trust this small note helps you along the way.
Best of luck and please keep us posted on your successes.
